

Freedom Hills Recovery and Education Center Employee Assistance Program

The Employee Assistance Program offered by Freedom Hills Recovery and Education Center is a service to assist local employers in providing a safe and drug-free workplace. EAP provides employees and their family members access to confidential and community assistance for a wide range of personal and work-related problems. Problems may vary with each individual employee.

Education and Wellness Promotion

Healthy workers make for health businesses. Freedom Hills Recovery and Education Centers help you seize the initiative in the battle against ill health and lagging production.

Why educate and offer wellness programs?

- Keeping employees healthy keeps them working ~ decreasing lost work time.
- Some insurance companies give a discount on premiums if the company does wellness promotion.
- A healthy workforce is a happy and more productive workforce

How can we help you?

Below is a list of Education and Wellness programs we can easily perform for business or organization.

Education:

- Communicable and STD classes
- Presentations and seminars concerning: stress management, grief management.

Addiction Services

- *Presentations of the 12 – Step Recovery process
- *Peer to peer support groups
- *Alcohol and drug screening assessments
- *Family support for those employees whose life is touched by the disease of addiction.

Consultation and assistance in the development of "Drug Free Workplace" policies and ongoing drug screening programs.

Freedom Hills Recovery and Education Center can assist a client company in developing their policies and setting up a Drug-Free Workplace program.

Drug and Alcohol education programs for employees and supervisors.

*****Regulations are in force which requires employers to provide educational programs of the effects of drug and alcohol abuse in the workplace. These programs also teach supervisor's how to recognize signs of substance abuse and handle various situations.**

Health Fairs and Presentations

The Request

The Board of freedom Hills decided to forego federal and State funding that come with federal control and requiring large professional salaries. We believe a community problem should be solved by religious, industrial groups and individuals that have a strong feeling about solving the drug problem in the community.

Addiction affects "churched" and "unchurched" citizens. Our budget is included. FHCC needs the financial assistance of your church and organization. **Become a part of our program. We can reduce the drug epidemic one life at a time!**

We thank you in advance for your time and consideration.

Sincerely,

Staff of Freedom Hills
